jonessh@hawaii.edu

EDUCATION

- **PhD in Botany**, University of Hawai'i at Mānoa Expected 2027
3.84 GPA
Advisor: Dr. Rakan Zahawi
- **B.A. in Biology**, Lewis & Clark College 2018
3.88 GPA
Advisor: Dr. Margaret Metz

AWARDS & GRANTS

- Dai Ho Chun Research Fellowship - \$5,000 2026
- Botany Graduate Achievement Scholarship - \$2,000 2025
- Botany Graduate Achievement Scholarship - \$2,000 2024
- Garden Club of America Fellowship in Tropical Botany - \$5,500 2024
- Botany Graduate Achievement Scholarship - \$1,000 2023
- NSF Graduate Research Fellowship - \$159,000 2023
- Ellen M Koenig Award in Botany - \$5,000 2023
- Fulbright Research Award - \$13,500 2022 - 2023
- Rufford Award - \$7,000 2022 - 2023
- Botany Graduate Achievement Scholarship - \$1,000 2023
- George Orton and Mona Marie Elmore Award in Botany - \$5,000 2022
- Dai Ho Chun Research Fellowship - \$3,000 2022
- REU Award - \$8,000 2018
- Trustee Endowed Scholarship - \$120,000 2015 - 2018
- Dean's List 2016 - 2018
- Northwest Conference Scholar-Athlete 2016

PUBLICATIONS

3. **Jones, S. H.**, Franco-Mena, D., Cantos, D. Z., Velez, J. C. L., Velásquez-Espín, F., Guayasamin, J. M., & Zahawi, R. A. (2026). Shade cacao plantations provide little conservation benefit for forest-dependent amphibians in the Ecuadorian Chocó. *Biotropica*, 58(2), e70196. <https://doi.org/10.1111/btp.70196>
2. **Jones, S. H.**, Franco-Mena, D., Zambrano Cantos, D., Looor Vélez, J. C., Aulestia, C., Zahawi, R. A., & Guayasamin, J. M. (2024). Range expansion for the Critically Endangered poison-dart frog *Leucostethus bilsa* Vigle et al., 2020 (Amphibia, Dendrobatidae), demonstrating the importance of small forest reserves in the Ecuadorian Chocó. *Check List*, 20(4), 853–858. <https://doi.org/10.15560/20.4.853>
1. **Jones, S. H.**, Reed, P. B., Roy, B. A., Morris, W. F., & DeMarche, M. L. (2023). Seed type and origin-dependent seedling emergence patterns in *Danthonia*

californica, a species commonly used in grassland restoration.
Plant-Environment Interactions, pei3.10105. <https://doi.org/10.1002/pei3.10105>

MANUSCRIPTS IN PREP

1. **Jones, S. H.**, Werden, L., Rosales, J.A., Oviedo Brenes, F., Zahawi, R.A. (*in prep*). Drone-derived canopy multispectral mapping in a tropical forest, with insights for restoration monitoring.
2. Love, A., **Jones, S. H.**, Zahawi, R. A., Karubian, J. & Gunderson, A. (*in prep*). Heat tolerance as a predictor of amphibian community composition along a thermal landscape gradient in Ecuadorian Chocó tropical forests.
3. Velazquez-Espin, F., **Jones, S. H.**, Mazanec, T., Cook, R., Olivo, J. & Karubian, J. (*in prep*). Forest-dependence drives amphibian diversity patterns in a fragmented tropical mosaic.
4. Glover, K.A., **Jones, S. H.**, Lackmann, J., Shideler, L., Wiseman, B., Franklin, E. (*in prep*). News cycle aftershocks: Self-exciting attention dynamics across democracies.
5. Tougas, G., Roberge, A., **Jones, S. H.**, Werden, L., Laliberté, E., Muller-Landau, H. (*in prep*). Drones for tropical forest monitoring: Methods, resources, and future research directions.
6. Reid, J. L., Zahawi, R. A., **Jones, S. H.**, Sanchez-Julia, M., Tirado, M., Aparicio Vera, S., Aulestia, C., Duerr, N. & Karubian, J. Choconexión: An experimental landscape for community reassembly in restored tropical rainforest. In preparation.

RESEARCH EXPERIENCE

- | | |
|---|----------------|
| ● PhD Candidate | 2021 - present |
| Zahawi Restoration Ecology Lab
University of Hawai'i at Mānoa | |
| ● Fulbright Research Scholar | 2022 - 2023 |
| Laboratorio de Biología Evolutiva
Universidad San Francisco de Quito | |
| ● Research Assistant | 2016 - 2019 |
| Metz Plant Community Ecology Lab
Lewis & Clark College | |
| ● REU Intern | 2018 |
| Bridgham Lab
University of Oregon | |

RESTORATION EXPERIENCE

- | | |
|---|-------------|
| ● Volunteer | 2021 - 2022 |
| Mānoa Cliffs Restoration Project | |
| ● Habitat Restoration Specialist | 2020 |
| Ash Creek Forest Management | |
| ● Volunteer | 2019 |
| New Zealand Department of Conservation | |

TEACHING EXPERIENCE

- **Teaching Assistant** 2026
University of Hawai'i School of Life Sciences
- **Pod Teacher** 2021
Elm St. Pod
- **AmeriCorps Coach** 2019 - 2020
Playworks Pacific Northwest
- **Environmental Educator & Trip Leader** 2016 - 2019
Lewis & Clark College Outdoors
- **Teaching Assistant & Tutor** 2017 - 2018
Lewis & Clark College Biology Department

PROFESSIONAL SERVICE

- **Peer Review**
Biotropica (2x, 2026), *Plant Species Biology* (2026)
- **Admissions Committee Member** 2023
Fulbright Ecuador
- **Graduate Student Organization Representative** 2022
Botany Program at University of Hawai'i at Mānoa
- **Roundtable Committee Member** 2017 - 2018
Lewis & Clark College College Outdoors

PROFESSIONAL MEMBERSHIPS

- **Association for Tropical Biology and Conservation** 2022 - present
- **Ecological Society of America** 2025 - present
- **Society for Conservation Biology** 2026 - present
Drones for Conservation Working Group

PRESENTATIONS

- **Jones, S.H., R.A. Zahawi** 2026. *Remote sensing and machine learning to identify and map canopy tree species in southern Costa Rica*. Ecological Society of America. Salt Lake City, UT. July 2026.
- **Jones, S.H.** 2026. *Uso de drones en el monitoreo de bosques tropicales: Taller FCAT*. FCAT Ecuador. Quininde, EC. June 2026. ES.
- **Jones, S.H., Cantos, D. Z., Velez, J. C. L.** 2026. *Proyecto Cacao Ranas*. FCAT Ecuador. Quininde, EC. June 2026. ES.
- **Jones, S.H., Franco-Mena, D., R.A. Zahawi, J.M. Guayasamin.** 2026. *El cacao de sombra no beneficia a los anfibios de prioridad de conservación en el Chocó Ecuatoriano*. Red Ecuatoriana de la Herpetología. Quito, EC. May 2026. ES.
- **Jones, S.H.** 2026. *Un año buscando ranas con Fulbright: Desde Chocó a Galápagos*. Fulbright Ecuador Commission. Quito, EC May 2026. ES.
- **Jones, S.H., R.A. Zahawi, J.M. Guayasamin.** 2025. *Shade cacao cannot replace forest for conservation priority amphibians in the Ecuadorian Chocó*. University of

Hawai'i at Mānoa Ecology Evolution and Conservation Biology Seminar.
Honolulu, HI. Sep 2025.

- **Jones, S.H.**, R.A. Zahawi, J.M. Guayasamin. 2025. *Shade cacao cannot replace remnant forest for conservation priority amphibians in the Ecuadorian Chocó*. Ecological Society of America. Baltimore, MD. Aug 2025.
- **Jones, S.H.**, R.A. Zahawi, J.M. Guayasamin. 2025. *Shade cacao cannot replace remnant forest for conservation priority amphibians in the Ecuadorian Chocó*. Association for Tropical Biology and Conservation. Oaxaca, MX. June 2025.
- **Jones, S.H.**, R.A. Zahawi, M. Ferreira. 2025. *Drones for focal tree species classification and mapping around forest restoration sites in Costa Rica*. Association for Tropical Biology and Conservation. Oaxaca, MX. June 2025.
- **Jones, S.H.**, R.A. Zahawi, M. Ferreira. 2025. *Drones and machine learning for tropical tree restoration & conservation*. University of Hawai'i at Mānoa Tester Symposium. Honolulu, HI. April 2025.
- Conners, K., **S.H. Jones**. *Fulbright U.S. Student Program Information Session (online)*. Honolulu, HI. April 2024.
- **Jones, S.H.** 2023. *Frogs and Chocolate: Amphibian community assemblage in Ecuador*. ARCS Scholar Symposium. Honolulu, HI. April 2023.
- **Jones, S.H.** 2023. *Frogs and Chocolate: Amphibian community assemblage in Ecuador*. University of Hawai'i at Mānoa Tester Symposium. Honolulu, HI. April 2023.
- **Jones, S.H.** 2023. *Un Año Buscando Ranas: Chocó a Galápagos*. Charles Darwin Foundation Seminar Series. Puerto Ayora, EC. March 2023. ES.
- **Jones, S.H.** 2022. *Proyecto Cacao Ranas*. Invited presentation for Club de Jóvenes, Fundación para la Conservación de los Andes Tropicales. Quininde, EC. Oct 2022. ES.
- **Jones, S.H.** 2022. *Amphibian conservation in cacao plantations*. ARCS Scholar Symposium. Honolulu, HI. April 2022.
- **Jones, S.H.**, R.A. Zahawi. 2022. *Biodiversity maintenance and restoration in fragmented Neotropical forests*. University of Hawai'i Botany Graduate Proposal Symposium. Honolulu, HI. April 2022.
- **Jones S.H.**, J. Somers, & M. Tracey. 2017. *Using mitochondrial DNA to infer mechanisms of biogeographical distribution of Palaeognathae birds*. Phylogenetics Research Symposium, Lewis & Clark College, Portland, OR. Dec 2017.
- **Jones S.H.** & M. Metz. 2017. *Investigating the relationship between light availability and seedling diversity in an Amazonian rainforest*. John S. Rogers Program Summer Science Research Poster Conference, Lewis & Clark College, Portland, OR. Sep 2017.
